Course objective: This course has been specifically designed for nontransient and nonmunicipal water operations specialists. Our goal is to provide the training you need to renew your water operator certificate and also be better prepared to operate your own water system. Come prepared to discuss your water system. Four (4) certification hours will be awarded for four hours of attendance. Eight (8) certification hours will be awarded for eight hours of attendance.

There is no charge for this session but you must pre-register. **ALL TRAINING SESSIONS ARE SUBJECT TO CANCELLATION BECAUSE OF LOW ATTENDANCE.** We have had to cancel training in the past. To register for this workshop, call 1-800-367-6792 or visit our web site www.mrwa.com and click on the training calendar link.

Class instructors include the Minnesota Department of Health, HD Supply, Mueller Co., Hawkins Water Treatment Group and the Minnesota Rural Water Association.

To: Class D and E Public Water Systems

July 2017

The Minnesota Rural Water Association will be providing training sessions for your water operations specialist under a grant through the Minnesota Department of Health. Jennifer Koenig and Kyle Kedrowski, Technical Advisors, will be the trainers at these training sessions. Jennifer and Kyle also provide on-site technical assistance to help with the operator certification rule or any other water system assistance that is needed. Both can be reached at 800-367-6792.

The training session will be held at the location listed on the other side of this notice. As a Class D water operations specialist, your certification training requirement is 8 hours. As a Class E water operations specialist, your certification training requirement is 4 hours. **If you need to get certified as a water operations specialist for your system, please contact Jennifer or Kyle at 800-367-6792.**

To Register: Please call 800-367-6792 or visit our web site www.mrwa.com and click on the Training Calendar link.

Nontransient Noncommunity Public Water Systems: Serve at least 25 of the same people over 6 months of the year. Examples of nontransient noncommunity public water systems include schools, offices, factories, and daycares.

Nonmunicipal Community Public Water Systems: Serve at least 25 year-round residents, or serve 15 service connections used by year-round residents. Owned by a private party and include nursing homes, prisons, mobile home parks, housing developments and apartments.
